About US

Cap Ulysse is a training center located in the historical center of Bordeaux City committed in inclusive mobilities since 2015.

On 2022, it started to reflect on staff empowerment and self confidence when organising mobilities with learners with disabilities with European partners. After 2 strategic partnership projects and several years of collaboration, Alba Associacio (Sapin), Cap Ulysse (France) and Hamburger Arbeitsassistentz (Germany) decided to continue with some of the main activities of those projects, from witch this training course is based.
